## ON THE TILES

The exciting Folio series by Crosby Tiles, including the raised paper cut quality of the intricate Rivoli (pictured), brings refreshing whimsy to a room. The range offers an impressive 52 design options in two sizes – the 100mm or 200mm width. Whether stacked horizontally or vertically, in single lines or covering a full wall, this modern design is undeniably sharp. Priced from \$19.80 per piece. ## Fancy a cuppa?

The art world encroaches on the bathroom with the art basin Cup, designed by Meneghello Paoletti Associati. The unique addition is a tribute to the humble coffee mug. The one-piece, freestanding washbasin boasts a cup-shaped base that flutes out at the top, forming the rim. A looping handle allows the perfect position for a hand towel. This contemporary fixture comes in all white, or a black exterior and contrasting white interior. Priced from \$4990.
