Welcome

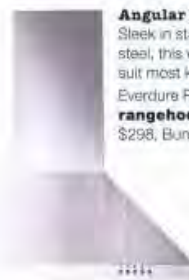

WHAT DO YOU DO when you come home after a long day, whether from work, the supermarket or the pick-up from kindy? You dump everything – keys, bag, bills, you name it – on the kitchen bench and feel an instant sense of relief. The kitchen is probably the most important room in the house – the room we are all drawn to. It needs to be multi-functional. You have to be able to cook up a storm in it and have enough space for the party to gather, even though you might have a perfectly good living room! The hardest thing about designing or renovating a kitchen is deciding what style to choose – warm, basic, contemporary, sleek? What cooker, fridge and work surface? The list is endless so we've done the legwork for you. This supplement is packed with inspiration for determining the look you love and showing you where to get it. We're also going to take you through the renovation of deputy art director Renae Lovett's white-on-white kitchen, step-by-step and down to the very last cent. There isn't a stone unturned in Renae's design – she worked out her style, did the research, drew up the floorplans, set her budget... She was a woman on a mission and I have no doubt you'll be inspired by her gorgeous kitchen and propelled into action yourself.

At the opposite end of the spectrum, the bathroom is the only room in the house where you can actually be alone – unless of course you have toddlers, then no space is sacred! In the bathroom you need to consider the light and surfaces, but the two crucial musts are a glorious water-efficient showerhead and a blissful deep bath to sink into. This is the room to revive you – so I'll let you get started.

I hope you enjoy our special supplement.

90 degrees

GET THE **organic bathroom** LOOK

Set in stone

Natural material gets a modern edge with contemporary tiling. Mosaic 8 "Crema Alpinia" **tiles**, from \$22 a sheet, Sareen Stone. Shown in Tumbled finish.

Hot stuff!

Spoil yourself with luxurious warm towels. Kado "Lure" heated **towel rail**, \$1024, Reeco. For stockists, see page 191.

Fluid form

Organic shapes come together. Alape "Circa" **basin**, \$641, Reeco.

CHOOSING: towels

They can make or break your bathroom decor.

Cotton Of the three options, Egyptian is most luxurious, Supima the most durable and Standard the least expensive.

Colour Match tones in the tiling or use patterned towels for interest against solid colours. Note that dark towels are not as absorbent as white towels because of the dyes used.
