

BATHROOM

Going with the flo

The Flo collection by Paco Jaanson is a new sanitary ware collection designed by Italian company Kerasan. The collection features the Flo wall hung or floor mounted WC and bidette and the Flo wall hung or bench mounted basin.

Paco Jaanson says current trends are to have as little of the WC and bidette showing as possible, to provide the consumer with something unobtrusive in order to create a more

spacious bathroom. The Flo style embodies this trend with its smooth, classic edges and curves that blend softly into either the floor or wall surface.

Flo comes in white only and the pan and bidet can be either wall hung or bench mounted and comes in one size. Basins come in four different

sizes: 460 mm x 370 mm; 500 mm x 400 mm; 900 mm x 420 mm; and 750 mm x 420 mm.

The company has also released 'Aeri in ebony'. It is an alternative to the original light timber range and is available in ebony birchwood timber. Designed in Spain by the Spanish Design House Estudio Roviras and Torente Ass in Barcelona, the bathware range comprises basins, furniture and tapware.

The collection is made from 7 mm all natural birchwood with an ebony finish and the material is protected by a high grade marine lacquer to maintain a perfect finish at all times.
