

Bathroom bliss

AN organised bathroom delivers a sense of space with toiletry products, hairdryers and towels economically stored, yet accessible for use, says Cathy Player, from Howards Storage World.

An organised bathroom can reward us by shaving a few minutes off our morning routines, she says.

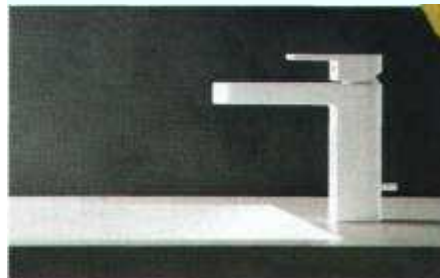

"Whether your bathroom is a hive of activity in the mornings, or a source of relaxation as you ease into a soothing bath after work, one thing is paramount: space," she says.

Storage solutions need to be stylish, she adds.

According to bath ware supplier Paco Jaanson, the bathroom's becoming the ultimate private sanctuary, hence the need for elegance alongside practicality.

"More than ever, bathroom accessories are a key consideration as modern bath ware design dictates that the sum or the parts make the whole," she says.
