

Get the luxe look

“New bathroom design is about implementing a stunning feature that doubles in both utility and aesthetic,” Mr Cass said. “It is evident that the development of clean lines and a new boldness of design are forcing the once humble vanity into the spotlight.”

Ross Cass, director.

THE future of the bathroom is here, with wall mounted vanities and modern accessories. The custom hung vanity by Cass Brothers comes from designers who have been creating bathware for Australian households for more than three decades. The design of the vanity returns to neutral, sleek lines and earthy inspired patterns, to fuse modern luxe with a timeless classic quality. It hones in on the sharpness of contemporary cuts while still maintaining an unstated-elegance through the use of a smooth marble-top finish. Vanities have also become much more affordable and are an impressive way to best

maximise bathroom space when coupled with beautiful contemporary bath filler tapware and an array of basins from angular and bold to ancient-inspired architectural shapes. And for the perfect finishing touch choose from the new collection of accessories from designer Maurizio Duranti’s celebrated Belmondo range which includes stunning towel rails, shelves, robe hooks and soap dishes. Belmondo Accessories are available from Paco Jaanson stores.
