

## SMALL TOUCHES THE DIFFERENCE

SMART accessories are a good way to update your bathroom without breaking the budget.

### ■ **Luxury Heated Towels**

A simple but affordable luxury, this has become one of the most affordable and popular bathroom items, says Reece bathroom marketing manager Belinda Geels. Reece's Hydrotherm range, (pictured bottom left), comes in different styles.

### ■ **Customisable Furniture**

This gives versatility and value. Popular range includes stylish, multi-purpose furniture, like vanity units incorporating hidden storage, said Ms Geels.

### ■ **Thinking Small**

Don't ignore the small stuff like toilet holders, seats and taps, says Ari Zorlu, owner of Paco Jaanson. Keeping things simple, and not following fads will ensure your bathroom doesn't date too quickly and is cost-effective.

Paco Jaanson's Batlo collection of tapware, (pictured left), features a palette of reds, blues and greens. Designer Julio Lachetti followed the fashion trend in colour blocking. Similarly, basins play a big role with Victoria + Albert's organic range for the budget-minded.
