POP IT LIKE IT'S HOT

Whether tiles or tones, artwork or accessories, colour is an easy way to transform your bathroom. Think outside the box and do something brave, because colour can be your ally in a sea of white and beige. Be conservative or go wild, like the bold basins in this Paco Jaanson bathroom. This design concept was created by Milan-based industrial designers Claudia Danelon and Federico Meroni, and features the Etna wall-hung toilet and bidet, and the Venice wall-hung basin, both in bright orange. www.pacojaanson.com.au.
