

## TIPS

## BIG SPLASH IN A SMALL SPACE

IF YOUR bathroom is small, choose specific pieces to suit, Paco Jaanson Australia's director, Ari Zorlu, says. He offers design tips to make the most of a tight bathroom: **BATHTUBS:** A bathtub is not a necessity, especially when you have a small bathroom. However, if having a soak is a must, then check out the Rexa Unico Egg bathtub, designed for maximum relaxation, with different incline grades and integrated shelf.

**SHOWERS:** A modern bathroom calls for a clean, uncluttered look and a simple showerhead. Choose one that offers power and luxury.

**MIRRORS:** A mirror is not only functional but adds glamour and light. Look for a product that can do double duty, such as those that feature a large mirror plus floor-to-ceiling storage.

**FLOATING VANITIES:** Floating vanities combine a modern feel and make a small space appear less cluttered.

**DOWNSIZE THE TOILET:** Modern toilets are eco-friendly and compact in design.
