

# what's new

## ◀ joint-free basins

With its crisp white finish available in gloss or matte, five different styles and six sizes to choose from, the iStone countertop basin accommodates the growing market for bespoke bathroom design. Offering a touch of high-end luxury, the iStone's seamless, joint-free design encapsulates modern simplicity with an easy-to-clean appeal. Distributor Paco Jaanson says the iStone range is manufactured with a solid basin structure for superior mechanical strength, and the variety of styles available means these beautiful basins will harmonise with most bathroom designs.

## musical bathtubs ▼

The Centro Duo Oval from Candana is a bathtub with enameled paneling and a seamless body. Combining modern technology and timeless design, the tub's features include electronic controls, a whirl system, and a new sound wave bath audio system which acts as a sound box. Candana says this fusion of features allows users to enjoy a hot bath and 'literally immerse themselves in their favourite tunes'. Available in two sizes: 170x75cm or 180x80cm, the Centro Duo Oval is suitable for use in ensuites and family bathrooms.

## ▲ perfect pendants

Beacon Lighting Commercial presents a new range of energy efficient pendants, LEDlux. The three styles – Piper, Canteen, and Tapas – can be grouped together in a cluster over benchtops and stairwells. The Piper pendants feature ash wood detailing and are available in two sizes, while all three styles are available in matte black, matte white, brushed chrome, or copper. Each pendant is 650 lumens, and has been tested on various dimmers, with the Lucci 290998 Trailing Edge dimmer recommended as ideal for the pendants. The pendants can be mixed and matched to create a sophisticated and modern feature in the home.
