

COMPACT LINE

paco jaansõn

WILCO

DUAL FLUSH CONCEALED CISTERN

Compact line is designed to meet the requirements of concealed tanks with the best optimum design criterias. Innovative frame design uses non-corrosive material. Besides this; the design allows you to use the same product for light wall & wet wall applications with a modular foot system.

All design features ensure less material is used helping keep natural resources and ultimately protecting the enviroment.
