SINCE 2004 - ZAAFDESIGN

ZAAFDesign was founded in 2000 by Federico Rossi + Paola Giordano. Starting as a lighting design company, during the years has gradually expanded providing industrial design and engineering services to many different industries.

Beside an in house team of engineers and industrial designers, ZAAFDesign has created strategic outsourced partnership in order to offer turnkey projects solutions.

This blend of capabilities, together with a unique style approach have led to award winning products and to a number of inventions and design patents.
