BOCCHI BUTLERS SINK

500mm Apron Front Single Fine Fireclay Kitchen Bowl
Product Code: Bocchi -1136

DESCRIPTION

Traditional farmhouse styling gives the large, deep basins and softly rounded edges that makes apron-fronts beloved... the classics are classic for a reason.

Fireclay, a 100% natural organic and recyclable material used by craftsman for centuries to create timeless appliances has now returned to your kitchen. With the firing in our kilns up to 2000°F temperatures, Fireclay becomes the most durable material used in today's kitchens.

BOCCHI stainless steel wire Sink Grid offers a stable base for dishes while keeping the base of the sink clear to allow for easy draining. Specially engineered spacing allows enough flexibility in the grid to absorb impact from dropped dishes to help prevent breakage.

Designer Gamze Güven
